**VOLUNTARY ANNOUNCEMENT**

**FURTHER RELEASE OF DISPOSABLE MEDICAL MASKS  
SUPPORTING DOMESTIC AND GLOBAL COMBATS  
OF THE CORONAVIRUS OUTBREAK**

The board (the “Board”) of directors (the “Directors”) of Yestar Healthcare Holdings Company Limited (the “Company”, together with its subsidiaries, the “Group”) is pleased to announce that following the release of the house brand product “84 Disinfectant” in mid-February 2020, the Group plans to launch high quality standard disposable medical mask production and sales, in order to provide more personal protective equipment in domestic and global markets.

While combating coronavirus has resulted in worldwide shortage of disposable medical mask supply, the high quality standard disposable medical mask production line of the Company will have its installation and commissioning completed by March 2020, expecting the first production by late March 2020, with production design capacity up to 3 million pieces per month. Along with the “84 Disinfectant” launched in mid-February 2020, the product will be distributed to hospitals, supermarkets and on-offline platforms via the Group’s direct and indirect distribution network whilst proactively expanding into global market.

The Company maintains solid foundation in research and development, production, management, system and medical distribution networks and is now developing more healthcare consumables to help fight the outbreak, so as to serve the diagnostics department of medical-related institutions as well as the general public.
